

DIRECTOR'S ADDRESS

Dear International Students!

Šiauliai State College implements qualitative higher college studies, oriented towards practice; it creates and fosters modern and democratic higher school setting.

The study programmes, implemented by Šiauliai State College, are viable; they are systematically renewed and improved in consideration of the requirements of the labour market and the students' needs. The studies are oriented towards higher education, based on practical skills; therefore, a lot of attention is given to practical training and relations with the labour market.

Striving for high-quality college education has organised an industrious, creative and viable academic community. In the process of studies students cooperate with competent teachers, who steadily improve their qualification, participate in conferences, seminars, practical placements in Lithuanian and foreign companies and higher schools.

Šiauliai State College constantly improves its study base (new laboratories, classrooms and modern auditoria are established), strengthens its scientific potential: research to improve the quality of studies and contracted research for companies are carried out; methodical literature is prepared; periodical journal of scientific articles is published; scientific, practical conferences are held; Students' scientific society was established, applied scientific research is carried out; regional community is consulted; educative activity is becoming more active.

Nation-wide and international external relations of Šiauliai State College offer wide opportunities for cooperation in academic, public and cultural space. Therefore, we are happy to invite foreign youth to study at our higher school. This ECTS Information Package will help you to choose desirable study programmes.

I believe it will be interesting and useful for you not only to acquire knowledge and practical skills, but also to know our country, town and people better.

Welcome to Šiauliai State College. We look forward to meaningful and efficient cooperation.

PhD Natalija Šedžiuvienė
Director of Šiauliai State College
